

# Private Investigator's 15-Year Research Unlocks the Mysteries of Life after Death

KENNEBUNKPORT, ME, April 15, 2015 -- Bob Olson is a former skeptic and private investigator who began investigating evidence of life after death after the passing of his father in 1997. This event ignited questions in Olson that he never before considered, so he decided to use his skills as a private eye to investigate the afterlife.

After uncovering and evaluating evidence during his 15-year investigation, Olson has now written a book titled *Answers about the Afterlife*. This book is a comprehensive resource answering 150 of the most crucial questions about what happens when we die.

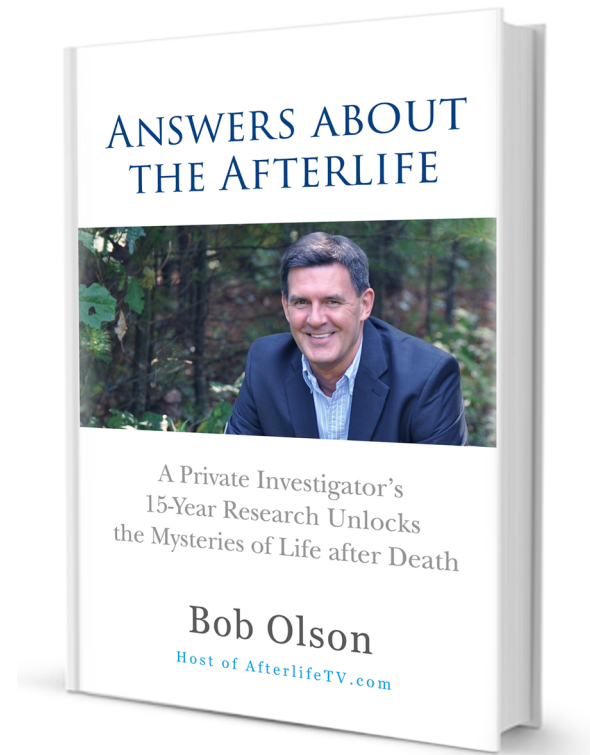

Whether you're grieving the loss of a loved one, curious about what happens when we die, or pondering your own mortality, this book will leave you feeling less fear about death, inspired to live a more loving and purposeful life, and comforted by new thoughts about your loved ones in the afterlife.

Olson explains that he's an investigator, not a psychic or scientist...

"It's important that I explain how I arrived at these answers," writes Olson in the Introduction of his book. "I'm an investigator, not a psychic, medium, or channeler. I'm also not a scientist. I'm an investigator who draws conclusions based on an examination of the evidence using logic, reason, and pragmatism. I look at the evidence first and draw my conclusions second."

Olson encourages readers to NOT accept his conclusions as their own, but to become their own afterlife investigator...

"I hope you will use this book to inspire your own investigation into the afterlife rather than take my answers as the final word" Olson writes. "Let my answers in this book help you to see the bigger picture, which might include two or three opposing beliefs, so that you can draw your own conclusions."
